IRON SHAFTS - PROJECT X LZ STEEL

TRUE TEMPER®

- Project X LZ features proprietary Loading Zone Technology
- Maximum shaft load during the downswing for greater energy transfer
- Loading Zone Technology is achieved through variable wall technology in the shaft's butt and tip sections and a reduced stiffness in the midsection

WOOD SHAFTS - PROJECT X - HZRDUS BLACK

TRUE TEMPER

HZRDUS Black delivers extreme distance for the stronger and more aggressive golfer without sacrificing control. HZRDUS Black is a low launch / low spin design that features increased stiffness along the full length of the golf shaft, including an extra stiff mid-section, that allows golfers to put more power behind the ball.

WOOD SHAFTS - PROJECT X - HZRDUS YELLOW

TRUE TEMPER

HZRDUS Yellow is a counter balanced, low spinning shaft that features a straight tapered midsection for improved feel. This profile is perfect for players with a smooth tempo who want to reduce launch and spin rates. The counterbalancing allows for additional mass to be added to the head for increased ball speeds.
