CLUBGLIDER®3 NEW!

For more than a decade, ClubGlider has set the standard for golf travel. ClubGlider3 raises that standard with rugged ripstop construction, advanced protection features, and industrial grade hardware. Built on ClubGlider's patented retractable kickstand system, ClubGlider3 removes the strain of dragging a fully loaded bag and places it on the engineering.

Features:

- Made from weather- and abrasion-resistant 900D polyester ripstop for rugged durability
- A TPU film laminate and DWR finish form a systematic line of defense against mother nature
- Thermoform-molded casing and velour-lined interior shield and protect clubs
- Integrated TSA lock and internal AirTag pocket offer total protection and security
- Patented kickstand extends and retracts in one easy motion to support the bag's weight
- Legs retract into recessed moulded tray & Precision glide wheels move with ease
- Industrial-grade two-way zips and heavy-duty clips keep gear secure
- Internal cinch straps + external and internal pockets maximize storage and organization

Specifications:
